## Barbara Westbrook

She's at once unassuming and decisive, elegant and eloquent, but above all, interior designer Barbara Westbrook is well-known for the bespoke, intimate interiors she fashions for her clients with what seems a slight of the hand. Here, she reveals a few resources that make her own home equally refined.

"They are very soothing at home and work." Stone of Gesso candles (\$40) by Merve Gamb's through Belvedere, (404) 352-1942.

"I saw this china at a client's house and loved the sculptural shape. The orange-red dot at the bottom is like the red sole of a Christian Louboutin shoe." Mugcup, (\$34) and saucer (\$22), cereal bowl (\$30) and dinner plate (\$39) by Divade in Victoria through Domus, (404) 872-9090.

"Good taste knows when to push the envelope and when to edit the look. To be tasteful and yet not stale or too safe in our design work is a constant challenge that I relish."
