GRACEFUL GATHERING

BARBARA WESTBROOK, WESTBROOK INTERIORS An expansive curved wall—an architectural hallmark of this freshly constructed home—created unique proportions in this salon, but that did not deter interior designer Barbara Westbrook from envisioning the room as a comfortably elegant gathering space for a young family and their guests. Westbrook was careful to keep a light palette in a room so rich in texture and tone, opting to fill the light-filled room with luscious textures, from silks to tactile wools. Interest abounds at every turn, from flokati throw pillows and a table with a tortoise-shell top to a pair of oversized paintings from Pryor Fine Art. Throughout the space, pretty pales are punctuated by pieces with dazzling sheens, for an effect that's at once calming and exuberant.
